# Project 02: Modify Subaccount Details

Problems

01 Hide inactive or irrelevant subaccounts

02 Attach contextual notes for reference

Insurance id number change, merge history, hide/show history etc.

Outline/Structured Pseudocode

```
def manage_subaccount(subaccounts, id, action, note=None):
    if id not in subaccounts:
        return "Subaccount not found"

    if action == "hide":
        subaccounts[id]["visible"] = False
    elif action == "show":
        subaccounts[id]["visible"] = True
    elif action == "note" and note:
        subaccounts[id]["notes"].append(note)
    return subaccounts[id]
```
